Professional Summary

MERN Stack Developer with 1.5 years of experience in ReactJS, NextJS, Node, Express, MongoDB, and REST APIs. Implemented real-time features using Socket.io and integrated secure payments with Razorpay. Skilled in JavaScript, responsive UI, Git/GitHub, and familiar with React Native.

Technical Skills

Frontend Development: HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js, React Native, Redux Toolkit, Axios, RTK Query, React Table, Tailwind CSS, Socket.io.

Backend Development: Node.js, Express.js, RESTful APIs, Websocket, .

DevOps & Tools: Git, GitLab, GitHub, VS Code, Postman

Programming Languages & Algorithms: JavaScript, Core Java, Data Structures and Algorithms

Experience

Oodles Technologies Pvt Ltd

Jan 2025 - Oct 2025

Associate Front-end Developer

Gurugram, India

- Developed responsive and accessible user interfaces using React.js, Next.js, React Native, JavaScript, and Tailwind CSS.
- Integrated REST APIs with RTK Query, ensuring smooth data flow, caching, and real-time synchronization.
- Implemented role-based access control (RBAC) and improved form validation and error handling to enhance security, accuracy, and overall user experience.
- Built reusable and scalable components, optimizing front-end performance for faster load times and improved SEO.
- Collaborated closely with clients, backend, and design teams to ensure seamless integration and consistent functionality.

JSpiders

Jun 2024 - Dec 2024

Full Stack Trainee

Noida, India

- Developed efficient, clean, and maintainable code under the supervision of senior developers, focusing on best practices and code quality.
- Utilized Git and GitHub for version control and collaborative development, managing codebase effectively with pull requests and code reviews.
- Participated in agile development processes and contributed to project planning and sprint reviews.

Projects

Zinr | React, RTK, Razorpay, Socket.io, Framer Motion, MongoDB, ExpressJS 🔄 Deployed Link Apr 2025 – Oct 2025

- Developed the ZinR(Zomato in Restaurant) — a SaaS platform that digitizes restaurant operations by enabling menu management, QR-based ordering, and real-time order tracking.
- Developed a responsive React + Tailwind CSS UI with reusable components and smooth Framer Motion animations.
- Implemented real-time order updates using Socket.IO and optimized performance with Redux Toolkit, RTK Query.
- Integrated Razorpay for secure subscription payments.

AI Real Estate CRM | React, Redux Toolkit, RTK Query, React Table, Mapbox 🔄 Deployed Link Apr 2025 – Oct 2025

- Built a dynamic dashboard with location-based search, filters, and property listings using React Table.
- Designed detailed property view pages with owner verification, land registry integration, and feedback submission.
- Developed chatbot UI to provide instant property insights powered by AI and backend integration.
- Implemented RBAC, optimized performance, and ensured a fully responsive and user-friendly UI using Tailwind CSS.

StreamMe | React, Redux Toolkit, Tailwind CSS, JavaScript, Firebase 🐙 GitHub 🔄 Deployed Link Oct 2024 - Nov 2024

- Built a Netflix-like streaming application resulting in 35% increase in user engagement through dynamic content recommendations and intuitive UI design.
- Implemented Firebase Authentication for secure user management including sign-up, login, and session handling with real-time user state management.
- Integrated TMDB API to fetch and display real-time movie and TV show data, achieving 30% longer average session duration through engaging content discovery.
- Enhanced application with AI-powered movie search functionality using Google Generative AI API, improving user experience and content accessibility.

Education

Chhatrapati Shahu Ji Maharaj University

Dec 2020 - Jun 2024

Bachelor of Technology in Electronics and Communication Engineering

Kanpur, India

Coding Profiles

GeeksForGeeks
